If you have been sent this PDF and wish to verify that it came from <https://www.cuzmator.com> and find the "Certify Doc" link. There you may scan the file for free and without signing in, and will receive immediate confirmation of its authenticity for the original document at the time the certified document was created, and confirmation that it has not been altered in any way. Please note that subsequent error corrections to original documents may not be reflected in this certified document.

If you have a paper copy of this record and wish to verify its authenticity, visit <https://www.cuzmator.com> and find the "Certify Doc" link. Under the Upload PDF option, you will see a box to type in the Unique Hash Value. Carefully type the case-sensitive hash value, making sure to capitalize and lowercase letters as indicated. You will receive immediate confirmation. This paper-based method only confirms that a paper copy watermarked with this value came from our records, but does not provide the extra benefit of knowing that it has not been altered.
